EXPLANATORY LETTER

Regarding Trader Verification Documents

To	Fab Trader Verification Team
Subject	Explanation of Available Tax and Registration Documents
Applicant	Mustafa Bakan

Dear Fab Trader Verification Team,

I am submitting this letter in relation to my trader verification process on Fab and to clarify the documents available for my tax status in Türkiye.

I am registered in Türkiye under the exemption provisions of Article 20/B (Mükerrer 20/B) of the Turkish Income Tax Law (Law No. 193), which covers certain income obtained from internet-based activities and mobile application development.

Due to the specific nature of my tax registration under Article 20/B, the official documents available to me for proving my tax status are my Turkish Tax Certificate (Vergi Levhası) and my official 20/B Taxpayer / Exemption Certificate (20/B Mükellefiyet / İstisna Belgesi). I am therefore submitting both documents together with this letter.

I do not have a Chamber of Commerce Registration Certificate, Chamber Activity Certificate, or similar commercial registration document because these documents are not applicable to my current 20/B taxpayer status. I therefore cannot provide documents that do not exist or are not applicable to my legal and tax status.

For reference, the Turkish Revenue Administration (Gelir İdaresi Başkanlığı – GİB) recognizes the special tax and documentation regime applicable to taxpayers benefiting from Article 20/B.

Accordingly, I respectfully request that my trader verification be evaluated based on the attached official documents, namely:

- Turkish Tax Certificate (Vergi Levhası)
- Official 20/B Taxpayer / Exemption Certificate (20/B Mükellefiyet / İstisna Belgesi)

I kindly ask you to take the above legal and tax status into consideration during the verification process. If Fab requires any specific alternative document that can be obtained from the Turkish tax authorities for a taxpayer under Article 20/B, please let me know and I will provide it if applicable.

Thank you for your understanding and consideration.

Sincerely,

Mustafa Bakan
